

ZF2300

Starter kit and 3D glasses

Bright, stylish and lightweight

Using wireless active shutter technology, the Optoma ZF2300 3D glasses allow you to immerse yourself in the latest 3D movies, documentaries and sport.

Compatible with any Optoma Full 3D projector with a 3D Sync VESA port, these wireless 3D glasses provide improved contrast and brightness and never lose sync. Fully rechargeable, these glasses boast a long battery life of up to 60 hours. The stylish and lightweight design ensures comfort and even fit over most prescription glasses.

Wireless RF Technology

Up to 60 hours Battery life

Rechargeable Power
