

BE6i

Wireless Bluetooth in-ear headphones

- **Ultimate sound quality - Featuring Bluetooth with AAC and aptX®**
- **More listening time - Incredible battery life of up to 8 hours**
- **Ultra-lightweight solid metal casing - Better sounding, tougher, water-resistant (IPX5 certified)**
- **Rock solid wireless performance - Cordless experience with exceptional 30 metre Bluetooth® range**

The BE6i is the next evolution of the award-winning BE6 – which achieved numerous awards and accolades, including a 'Recommended' award from techradar.com, 4 stars from The Daily Mirror and GadgetSpeak.com. Digitaltrends.com also featured the BE6 in their list of the '10 best Bluetooth headphones'.

The BE6i takes the same stylish design as the BE6 but offers an incredible battery life of up to 8 hours. They are also IPX5 certified for greater protection from rain and sweat. The BE6i are the only Bluetooth® in-ear headphones to be fully crafted from aluminium, which provides crystal-clear sound and elegant design in a lightweight form-factor, making them durable and attractive for all lifestyles. In addition, the headphones feature Bluetooth with aptX® and AAC compatibility, for the ultimate quality in audio streaming.
